Demogratic City and Township Convention.

The Democratic City and Township Convenshied lest night at the City Hall, and eded to nominate candidates for the spring The Convention was full and has done. Its proceedings will be found else where is our columns. The ticket nominated is a good one, and should receive the support of every Democratic voter in the city of Columbus and the township of Montgomery. The nomi ations, made on Saturday evening last, for men and assessors in the several wards the city, are also good ones.

Let there be a vigorous canvass and a uniter effort for the ticket, the whole ticket, and noth-ing but the ticket, and a victory will be certain. The Democracy of the different wards and of the township should at once organize and labor with diligence for the success of the nominees. Fairly and honorably nominated, and well qualified for the discharge of the duties of the offices for which they have been respectively nominated, all the candidates should receive the undivided support of the Democratic electors. The Emperor has granted a new Con stitution, which provides for popular representation in a Reichsrath or National Congress, and in Provincial Diets or local legislatures. Departure of Five Vessels on a Secret Govern-ment Expedition—Speculations in Regard to their Movements

According to the "World," a Republicar journal, there were on Toursday, at the quaran-tine, five government wessels, with provisions, arms and troops on board, destined on some setimits of the diploma of the 20th of October, 1860, is decreed.

For the other provinces liberal statutes, with representation of the interests of the people, will be given.

To towns the representation will be at the rate of five per cent. of the population. In rural districts it will be below five per cent.

The Provincial Diets are to legislate for their respective provinces, to have autonomy, the right of initiative, and publicity.

The Provincial Diets are to meet on the 6th, and the Reichsrath on the 20th of April.

It is predicted by the London Times, that if there should be no revolt in Hungary before the meeting of the Provincial Diets, the peace of Europe will not be disturbed during the present of Europe will not be disturbed during the present future movements."

of Europe will not be disturbed during the present year. Ganisald will not attack Venetia, unless Hungary is prepared to take Austria on the flank, and in the same event Pressia is virtually pledged to remain neutral. By the concessions the Austrian Government is making to the people, it is taking the most effectual way to preserve the integrity of the Empire.

National Bankruptcy.

National bankruptcy stares us in the face. Not only the new Fresident, but it is to be feared that every member of the Cabinet is unequal to his position. The revenue cannot be collected at the South, and yet no steps are taken for calling an extra session of Congress of Congress

equal to his position. The revenue cannot be collected at the South, and yet no steps are taken for calling an extra session of Congress, or otherwise remedying the evil. Deprived of the revenue from imports at the Southern ports, the Federal Government must inevitably become bankrupt.

It will be impossible to collect the revenue on ships stationed at the mouths of Southern rivers and harbors, for two reasons: First, it will require a larger naval force than can be spared for that service; and accordly, the new fariff act gives the importer, before paying the duties, the right to warehouse his goods for any time not exceeding three years, and this warehousing cannot be done in floating custom houses.

Either the law must be changed by the action of Congress, or some more effective means devised for collecting the revenue than stationing vessels along the coast; or the Government will soon find itself in the crippled condition of what interchal and a confidential conferces have had anything to do with the proposed movements; hence nothing but time will reveal the object and success of the operation.

Fall of an Acciont Church Tower

when the workmen were all ordered out of the dathedral, and a quarter of an hour later the tower and spire fell to the floor with but little noise, forming a mass of near six thousand too fruin in the centre of the church, and carryin with it about twenty feet in length of the nave and as much of the transept and choir. "The spire at its fall," says an eye-witcess, "at fir inclined alightly to the south west, and then say gently into the centre of the building. The appearance of the fall was that of a large she quietly but rapidly foundering at sea." Fortunately no one was injured by this catastroph but the people of Chichester are inconsolable over their architectural loss.

The cruelty to white people in England, who are so unfortunate as to be "servanta," is well known. The European Times gives an account of a girl at Kidderminster, who was terribly abused by her "master and mistress." They stinted her in food, horse-whipped her, heat her with a buckle strap, and repeatedly struck her with the blacklead brush. Kicking was an every day occurrence. When the girl returned to the workhouse she was in a wretched state; there was a large hole in her head, and in places the hair had been torn off. There, ye negro philanthropists, is a case for you!

GTA heart-rending calamity occurred a few days ago at Sing Sing, N. Y. Mr. Mara had returned from the cemetery after having buried bis wife, taking home with him his only child, which he had left with one of the neighbors until he returned from the funeral. About 12% o'clock the following morning, his house was discovered to be on fire, and before engines arrived the building was consumed. In the ruins were found the remains of Mr. Mara, but those of his daughter could not be discovered.

THE BRIVISH ARRY.—Last year the number of soldiers of all kinds in the service of Queen Victoria was 228,854. This year there will be 212,773, or about 16,000 less than in 1860. The reduction takes place in the East India service alone, the other branch remaining substantially as before. An embodied militia for home service, amounting to 15,900 men, will no longer be retained on an active footing. The regular force to be retained in the British Islands this year will be about 145,000.

SECESSION OF A RIVER.—The New Orleans Sicks son or A River.—The New Orleans Delts says the communication between the Red river and the Mississippi is being gradually cut off. The former is taking itself off to the Gulf by way of Atchafalaya into Berwick's Bay. Unless something is done to prevent the Red river from seceding, New Orleans will lose a large amount of valuable traffic. A company is talked of to keep the channel open. It is thought it will cost \$2,000,000.

As Allzond Swindle.—An extensive swindle is said to have come to light in New York within a day or two. The story runs that a well-know official holding a State office, was entrusted with 30,000 or \$40,000 by certain parties, a few weeks ago, to engineer through the Legislature of New York certain contracts, but that instead of using the cash to grease the machine and secure the contracts, he put it in-to his own pocket, and decamped for parts as
